

CABLE BLOWER

BLUE DRAGON JET MAX

This professional cable blowing machine is designed for blowing cables with the diameter from 6 to 15 mm. Ducts diameter 32mm, 40mm and optional 50mm. Solid and simple construction ensures ease of operating the machine and allows to preserve the reliability. High quality feeder and power of pneumatic motors allows to blowing cable with the speed up to 110m/min and for distance up to 2,5km.

Blue Dragon Jet Max is provided with:

CPS (Cable Protection System) – a unique system of cable protection through the precise guiding of the movable part of the tray.

Dragon Jaws – specially constructed micro cables collets. The profiled sharp teeth provide secure fastening of the cables without decreasing their diameter.

| TECHNICAL PARAMETERS | |
|----------------------------|--|
| Cable diameter | Ø 6 - 15 mm / 20 mm (for special order) |
| Ducts diameter | Ø 32 mm, Ø 40 mm / optional Ø 50 mm |
| Blowing distance | Up to 2500 m |
| Blowing Speed | up to 110 m/min |
| Engines' power | 320 W |
| Maximum operating pressure | 15 bar |
| Meter counter | Mechanical |
| Compressor | Minimum efficiency 7 m ³ /min, 7 bar. Compressor must be equipped with a cooler and and air dryer. |
