

MICRO CABLE BLOWER

BLUE DRAGON JET

This professional micro cable blower designed for blowing micro cables with the diameter from 4 to 10 mm is new on the European market. Micro Cable diameter from 5 to 16 mm. Solid and simple construction enables easy operation of the blower and long-term durability. Due to high quality of the tray and power of the pneumatic engines the blow speed of up to 110m/min is available at a distance up to 2,5km. The distance of up to 3,5km is possible when we use water instead of air.

Blue Dragon Jet is the only blower equipped with:

CPS (Cable Protection System) – a unique system of cable protection through the precise guiding of the movable part of the tray.

Dragon Jaws – specially constructed micro cables collets. The profiled sharp teeth provide secure fastening of the cables without decreasing their diameter.

Standard equipment – a set of micro cable collets, cable guide bushings and all necessary seals. The blower is equipped with a very strong and durable mechanical cable length counter. Two manometers indicate the air pressure on the head and pneumatic engines. The blower together with the equipment is usually delivered in a durable, wooden and aluminum case. The blower is protected by the industrial design right issued by the European Office for Harmonization in the Internal Market.

TECHNICAL PARAMETERS

Micro cable diameter	Ø 4 - 10mm
Micro ducts diameter	Ø 5 - 16mm
Blowing distance	Up to 2500m
Blowing distance under water	Up to 3500m
Blowing speed	Up to 110m/min
Engines' power	320W
Maximum operating pressure	15bar
Meter counter	mechanical
Weight	20kg

BLOWER DIMENSIONS

Length	580 mm
Width	300 mm
Height	320 mm

TRANSPORT CASE

Length	640mm
Width	390mm
Height	410mm
Total weight (blower, case, equipment)	33kg

ADDITIONAL ACCESSORIES:

- Lubricant
- Cable lugs
- Calibration balls
- Micro cable cutters
- Stands for drums
- Tube cutters

Required compressor efficiency

- micro cables up to 8mm : 0,8m³ /min
- micro cables up to 8-12mm : 1,0m³ /min
- micro cables up to 12-15mm: 1,5m³ /min
- micro cables up to 15-20mm: 3,0m³ /min
