

# OTDR testing made easy

New software release

## MT9090A

Network Master™ Series  
μOTDR Module™

**Fiber Visualizer**

“Fiber Visualizer” is a new fault location function designed to simplify the entire testing process. Fiber Visualizer automatically selects the testing parameters to ensure the correct setup and provides a simple, graphical summary of the fiber under test within seconds. A comprehensive PDF report can then be customized and generated, completing the testing process.

Ready to test in  
only 15 seconds!

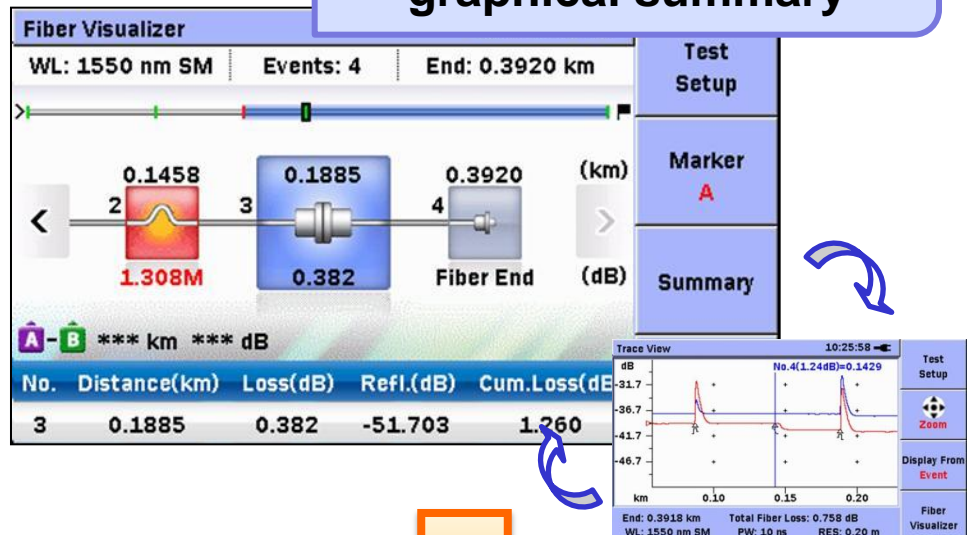

Full Auto  
Easy Operation!

IEC 61300-3-35 based  
connector Pass/Fail and  
PDF report generation

Easy to understand  
graphical summary

Toggle between summary  
and trace with one button
